Dear Chairman,

MAR 11 1993

FEDERAL COMMUNICATIONS COMMISSION
OFFICE OF THE SECRETARY

In response to an ad in the Denver papers I want to write to let you know how I and my family feel.

The "offensive" ads they refer to are the only way the American people are going to see and realize what abortion really is. I believe it is the medias responsibility to awaken us to the horror of abortion.

Just as they covered the Vietnam war, the Nazi concentration camps, and the

Starving people around
the world - the media
needs to awaken to this
terrible injustice and show
it like it is.

We see violence, crime,
bloodied service men, bodies

Who gave his/her life
for what? a selfish
motive produced these deaths -
Please help them - these
little ones who cannot speak
up for themselves. Help
them; that these little
Americans death is not
in vain. Help Stop
Abortion in this country -
Show us more!!!

Sincerely,
Leslie Kern

FEDERAL COMMUNICATIONS COMMISSION
OFFICE OF THE SECRETARY

To Whom It May Concern:

Our local TV station, KMOT in Minot, has recently been required to air anti-abortion advertisements for a candidate running for the U.S. Senate by the name of Larson. I object to these ads because of their obscene content and the time of day they are being aired. I do not feel children should be exposed to them.

Respectfully yours,

Mrs. Ro Held
5205 12th St. S.W.
Minot, ND 58701

I believe anti-abortion ads should be allowed to be shown on TV.

I think they should show an abortion (late term) on TV to show people that it is a baby that is being killed.

Abortion is not right, it is murder.

We sent one letter and since that wasn't
 good enough I'm sending a 3rd one.
 I know you have your rules or laws
 or what ever but its time for a change
 and if the ad for Mr. Harrison must
 be shown then by all means do it but
 if not for the grown ups at least
 try and think of the kids and
 think this and only this what if
 my kid saw this ad or what if I had
 a kid what would I tell them ???
 We done all I can to keep my son a
 kid far as knowing about what that
 so called a man shows, because he
 only has a short time as a child in
 a world in the shape we are in.
 the way I see it if it has to be shown
 then do it 12:00 pm till 6:00 am and
 off weekends, if anyone could be heart-
 less enough to show a D like that can

Gentlemen,

Please do not censor the
showing of unborn babies, killed
through abortion, on TV in the
various political campaigns. Americans
have to see what abortion really
does. We have already destroyed
over 27 million of our unborn
citizens.

Sincerely,

Mr & Mrs W. Stegmuller

A new individual receives 23 chromosomes from each parent. He or she is truly a unique individual human being, never to be repeated. Once fertilization has taken place, ovum and sperm no longer exist. A new person has been created, who at this stage is a tiny living organism weighing only 15 ten-millionths of a gram.

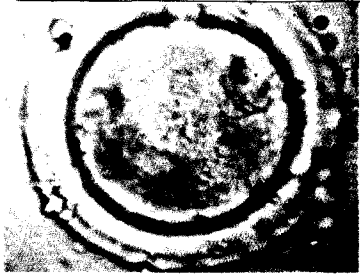

Three-fourths of mankind live in countries that have given up the historic protection of unborn babies. Chances are that this killing will run through the whole of mankind.

Given low birthrates, the whole West is already virtually dying out.

The total number of abortions — by surgery, Pill, device or other destructive interference — can only be imagined. The catastrophe is total.

Abortion is the greatest war of all time. Never in the history of mankind has there been so much violent death in the world.

Euthanasia, another work of the Father of Lies, is steadily increasing the death toll.

The Miracle of life...

So when does human life begin? When does the tiny human organism developing inside the mother actually become a human being? When is it a real person, an individual with all the basic rights that all human beings have — particularly the right to life?

At the moment of conception/fertilization, all the necessary elements that create a new human being are present. When the chromosomes of the father and mother unite, they form an absolutely unique, never-to-be-duplicated human person. At that moment, life begins. From that moment on, any further formation of the person is purely a matter of development, growth and maturation. From the moment of conception, the child grows. And keeps growing until life ends.

At three weeks, the tiny human being, only one-tenth of an inch long, already has the beginnings of eyes, spinal cord, nervous system, lungs, stomach, intestines. The primitive heart, which began beating at about 18 days, now pumps more confidently. All this before the mother may even be aware of this new life within her.

By six and one-half weeks, the child is making body movements, a full 12 weeks before the mother may notice such stirrings.

At 8 weeks, the developing child can make a tiny fist, get hiccups, suck a thumb, wake and sleep. All bodily systems are working.

At 11 weeks, while the placenta continues to supply food and oxygen, the child can make complex facial expressions and even smile. All bodily systems are becoming more efficient.

At 16 weeks, only 5 1/2 inches long, the child can use hands to grasp, can swim and turn somersaults.

8 WEEKS

11 WEEKS

11 WEEKS

The 18 week old child is active and energetic, flexes muscles, punches and kicks. Now the mother feels the child's movements. Before modern science, some said that at this time — the time of "quickening" — life begins. But the child's development actually began at conception, 18 weeks earlier.

While growing within the mother, the child develops separately from her, with a separate, individual blood supply. The child's life is not the mother's life, but a separate, individual life.

And the child has as much right to this life as the mother has to hers. Or as any other human beings of any age have to theirs.

18 WEEKS

This right to life is the most fundamental right of every human person. To violate this right, to destroy a life, to kill a human being at any age or stage of development — whether in the womb or out of the womb — is a crime against God and humanity.

Death

1. BY PROSTAGLANDIN - drug-induced premature labor expels unborn child. Also done by salt-poisoning.
 2. BY HYSTEROTOMY - mini caesarian section operation removes unborn child.
 3. BY DILATATION and CURETTAGE - surgical instrument introduced into womb dismembers unborn child.
 4. BY SUCTION - powerful vacuum pressure sucking unborn baby and placenta from womb.
- 

The Unborn Child IS Human

As these pictures show, the humanity of the unborn cannot be disputed. Even though abortion is legal through the entire nine months of pregnancy in the U.S., this does not make it right.

ABORTION IS ETHICALLY WRONG: The world's major religions condemn abortion — e.g. the Judeo-Christian commandment: "Thou shalt not kill." Abortion violates the doctor's Hippocratic Oath and Declaration of Geneva — which states: "I will have the utmost respect for human life from the moment of conception."

ABORTION IS UNNECESSARY: Abortion cures no disease. If the child is wanted, doctors will support a woman through any known medical condition. Our present abortion epidemic — now over 1.5 million surgical abortions a year — has resulted in the virtual drying up of adoption services.

ABORTION IS DANGEROUS: Besides killing the child, abortion can endanger the mother's health or life. Society suffers when some people can kill others for convenience. And widespread abortion hastens the day when there will be too few workers to support the elderly — straining social services and increasing pressure for euthanasia.

There is a Better Way...

We realize some women face hardships arising from pregnancy. Rather than the lethal "solution" of abortion, we proliferate offer positive and loving support, medical care, adoption and social services — for mother and child.

Dear Sirs:

I am writing regarding the
anti-abortion ads now being
aired on KMOT-TV Minot, ND

Never have I seen, in my
56 years something I regard as

92-254

Is this really what we want the next generation to think - that the good guys have values - even if they can't support them - and the bad guys tear them out in pieces. There is definitely a flaw in this line of thinking.

Please give some serious ~~and~~ consideration to a closer monitoring of the material that is shown on our family TV channels.

If these ads must be shown, could they be on after 10:00 p.m. when most youngsters are not viewing them.

Sincerely,

I think the aborted fetuses should
not be shown. This is very upsetting
to small children. There must
be some way for this practice to
be done away with. I am so sick
of seeing this commercial. I some-
times just ^{turn} the T.V. off. CMN ~~is~~
really ~~bad~~ a good station but
I can't hardly watch it anymore
because this adu. is on so much
and it is so sickening. I have
not ever had an abortion & don't plan to so
that is not the motive. Thank you
of this letter.

propagation of ^{lies} ~~lies~~ is building
on sand - which will eventually
crumble. Truth telling is
building a rock-solid foundation
that, in the end, will triumph.

Please use your influence to promote
what is right + truthful. Let political
campaigns have some "solid meat" + not
just "whipped cream" words - tickling the
taste buds, but of no lasting value.

Let Pro Life Candidates run their
ads.

Respectfully +...

Sincerely,

Mr. Thomas W. Snyder
Mrs. Shirley J. Snyder

Please do not ban advertisements
similar to Michael Bailey's anti-abortion ads!
The act itself - abortion is despicable and
should not be allowed. It is not the reporting
that is despicable.

Freedom of speech is guaranteed
in the Bill of Rights - constitution. Freedom
in political speech is even more precious.

Michael Bailey, the unsuccessful republican
9th district congressional candidate is an admirable
Christian man. He has been trying to help people
realize what a horrible evil - abortion is. They
think (a lot of them do) that it is just a clump

Gentlemen:

What can be more graphic than
a picture? What other way can we
stop abortion? I totally agree
that the TV pictures shown of
maimed, dead babies will
be effective and instrumental
in stopping murder.

The "free thinkers" say we should
show life as it is: sex, nudity,
vulgar language, porno - that's
life - So why change the policy
for abortion - ?

Sincerely,
Bernie Briggs
